

**CAN-AM**

**The original J&J single-seater...Clean, sleek and still stylish. This is the go-kart that took the industry by storm and put J&J Amusements on the map.**

The year was 1991. A small, emerging company was designing and testing a new product. That product was the incredible J&J Can-Am go-kart. This go-kart provided the model for all karts that have followed. J&J's requirements for the Can-Am were that it be easy to maintain, safe, clean and fun to drive. The Can-Am met these requirements and went beyond!

We set a standard with the introduction of the Can-Am, and today we are still setting the standards in the go-kart industry. No other concession go-kart manufacturer can claim to have made as many industry leading breakthroughs as J&J Amusements. Our go-karts continue to be simply the best.

At the heart of the Can-Am is a reliable Honda 4-stroke engine. Add to that an optional large capacity fuel tank and see why the Can-Am set a World Endurance record for 24 hour non-stop driving! Our go-kart broke the record by over 40 miles!

As always, this go-kart has many color/graphic options and is sure to look as good as it performs!
